

How to

Setup Google Analytics

with Blink

Log on to analytics.google.com & sign in with your google account

A screenshot of the Google sign-in page for Google Analytics. The page has a white background with the Google logo at the top center. Below the logo, the text "Sign in" is displayed in a large, bold font, followed by "to continue to Google Analytics" in a smaller font. A text input field with a light gray border contains the placeholder text "Email or phone". Below the input field, there is a blue link "Forgot email?". Further down, there is a line of text: "Not your computer? Use Guest mode to sign in privately." followed by a blue link "Learn more". At the bottom left, there is a blue link "Create account". At the bottom right, there is a blue button with the text "Next" in white.

Accept Google Analytics Terms of Service Agreement

Google Analytics Terms of Service Agreement ✕

To use Google Analytics you must first accept the terms of service agreement for your country / region.

United States ▾

"Account" refers to the account for the Service. All Profiles (as applicable) linked to a single Property will have their Hits aggregated before determining the charge for the Service for that Property.

"Confidential Information" includes any proprietary data and any other information disclosed by one party to the other in writing and marked "confidential" or disclosed orally and, within five business days, reduced to writing and marked "confidential". However, Confidential Information will not include any information that is or becomes known to the general public, which is

I also accept the [Data Processing Terms](#) as required by GDPR. [Learn more](#)

Check email communication as per your preference and click Save

My email communications

We occasionally send emails to update you on what's new with Google Analytics. However, we want you to always be able to choose which communications you receive from us, so please let us know your preferences below.

Regardless of your selections, we may still have to send you important product updates that impact your account, but that's all you'll receive from us. We respect your privacy and will not share your personal information with third parties or partners.

- Performance Suggestions and Updates**
Receive updates and tips that help you get the most out of your Google Analytics account. You will initially receive suggestions and updates for up to 5 of the properties you have access to. These properties are selected by Google Analytics. You may modify these updates in Admin > User settings.
- Feature Announcements**
Learn about the latest changes, enhancements, and new features in Google Analytics.
- Feedback and Testing**
Participate in Google surveys and pilots to help improve Google Analytics.
- Offers from Google**
Learn about related Google products, services, events, and special promotions.

Enhanced measurement

Automatically measure interactions and content on your sites in addition to standard page view measurement.

Data from on-page elements such as links and embedded videos may be collected with relevant events. You must ensure that no personally-identifiable information will be sent to Google.

Copy Measurement ID by clicking
on the copy icon

Click on Global Site Tag (gtag.js) to expand

A screenshot of the "Tagging Instructions" section in a web analytics interface. It features a blue wrench icon and the title "Tagging Instructions" with the subtitle "Use one of the following to start collecting data." Below this are two tabs: "Add new on-page tag" (selected) and "Use existing on-page tag". Under the selected tab, there are two expandable items: "Global site tag (gtag.js)" with a house icon and "Google Tag Manager" with a diamond icon. Each item has a brief description of its use.

Click on the Copy icon on the right corner

A screenshot showing the code for the Global Site Tag (gtag.js). The code is displayed in a light blue box with a dark blue border. A copy icon and a "Copy" button are visible in the top right corner of the code area. The code includes a comment, a script tag for the gtag.js file, and the initialization of the dataLayer and gtag function.

```
<!-- Global site tag (gtag.js) - Google Analytics -->
<script async src="https://www.googletagmanager.com/gtag/js?id=G-5DKLQBWD3L"></script>
<script>
  window.dataLayer = window.dataLayer || [];
  function gtag(){dataLayer.push(arguments);}
  gtag('js', new Date());

  gtag('config', 'G-5DKLQBWD3L');
</script>
```

Email Measurement ID & Global Site Tag to Support@blinkco.io

Google Analytics - Brand Name

Measurement ID: G-5DKLQBWD3L

Global Site Tag:

```
<!-- Global site tag (gtag.js) - Google Analytics -->  
<script async src="https://www.googletagmanager.com/gtag/js?id=G-5DKLQBWD3L"></script>  
<script>  
  window.dataLayer = window.dataLayer || [];  
  function gtag(){dataLayer.push(arguments);}  
  gtag('js', new Date());  
  
  gtag('config', 'G-5DKLQBWD3L');  
</script>
```
